this day admitted a Partner in our Firm. L. VINCENT & Co.

HAVE this day Established myself at this. SION AGENT, under the Firm or Etyle of | Cloud. E. I. ELIAS & Co. Agencies in Calcutta, Bombay, and Singa-1m 1592 Hongkong, 1st October, 1874.

Hongkono, October 23ad, 1874.

IT is not very often that the Specialor speaks upon matters of special interest in China but it is remarkable, as showing the pains taken by that journal to obtain accurate information that it rolling treats of as question without making weighty romarks in strict accordance with the facts as known to those bost informed upon them. While the whole of the Press in America and Europe |. was going into-ecstacies on account of the vast progress on the part of China shewn by the Burlingame Mission, the Speciator took for defendant. The chira was for damage sus, and the print was replaced in the wardmerits. In the same way it has been noticeable that in almost all important questions has seen further than the superficial views of now been taken up by foreign nations from which it is impossible to retire, and that any views which contemplate such a step, al-

can be of little practical use.

marks by observing the peculiarly sound and the subject effectually is to take steps to stop, steamer went on its way taking no notice of the . The defendant admitted the robbery of \$16, Court, injuriously adulterated Teas passing into the cookerwhee. She stopped a considerable time but denied the other. His case was there of THE Court. hands of the trade at home at all and the steamer was in charge of one of the most ext. STEALING SHOES method by which this should be done is perienced pilots. on the subject that although the malpractices in China may not have met with English what is more the public taste sustains them been faced may be innocent of any svil in night as usual. I was called up by the watch ty to snimals. Complainant said that on the tent, and may simply furnish an article which the consumer requires and knows perfectly coming and called up all the crew. She the Sailors' Home, a number of ballocks, which well when buying it, to be not absolutely pure. On this account our home contemporary wisely refrains from advocating a too light to be shown at the bow and another at of his trap and went on to the wharf where the searching condomnation of Teas, while at the same time it is in favour of a stop. being put to Tea that is really injuriously adulterated or is of a spurious character going into consumption at all, by water. The shock was so severe that four men The platform was slippery in the, extreme and

staying its importation. There is no doubt that there has been a good deal of exaggeration as to the injurious effects of Teas which are merely coloured. The discovery of some lots of that abombinable compound known as "Maloo Mixture" made people disposed to look with great disfavour upon all Tca that was manipulated so as to improve its apgo a great deal further with regard to it that it is to the interest of the community at profits were about \$30 per month. I promised said the cattle were following the bulloon. I had It years of age, and with the exception of this gere): "You can't come it Judge, I know what bome that a rigid stop should be put to the sale of Teas which are adulterated to any best way practically to meet the difficulty existing without pressing matters to extremes would undoubtedly be to adopt the suggestion of the Spectator, "If," it says " Tea be examined as Tobacco is by Custom House experts, and in the laboratory at Somerset House before leaving bond, and absolutely unicholesome stuff be kept out of the country, and if retailers, especially in poor districts, are well looked after, so thatthey do not defraud their ignorant customers, a most wholesome effect is likely to be exer cised on the manufacture of Tea in China, to the good of all concerned, whatever temporary derangements may ariso. It is unfair, however, to look for that result from attacks on the at present often holpless retailer alone." It would be difficult to sum up the rationale of the question in a more consise question. or a clearer form. To the importers, no insolutely unwholesome" character. Facing established in China that to refuse to purchase all Teas in any degree manipulated in this way, would be tautamount almost to re- called up by the watchman on my junk, about about putting it off, the request was not so 365,444cwt., valued at £338,328, in the correst from the irregular motion of the balloon there tiring from the trade in Tea altogether; and, as the experience of something like half century proves that Teas finished in the or- and I also blew the shell. I saw her venient, and asked Mr. Mitchell if he would dinary Chinese way are not injurious, it strike plaintiffs junk. The steamer did write to Mr. May to ask if it was convenient; sures to such an extreme as to condemn all sampan which went after some men in the keep in memory Mr. May's remarks. should be put to a practice of this kind: and, as the native dealers find it difficult and | Whampon the next morning. My boat cost called, and the first defendant was asked if she after a time-impossible to find purchasers for \$820 when new. I know that plaintiff's junk had any questions to ask them to shake the Channel Tunnel.—Punch.

Teas which have been dectored to an extent cost about \$800. A not such as plaintiff's evidence they had given. She taked no quesof course cease to attempt palming them off the steamer struck the junk. I am not staying for over sight years. There was a conduct believed to be new as a remedial agent, was cited as a very good example of its practical to make them really unwholesome, they will on purchasers, and will be careful how far they add ingredients which may improve the here about this case or the evidence I should appearance of the goods, but are extraneous give. He only asked me to be a witness. and may possibly prove injurious. By the adoption of the plan proposed, if we cannot put down altogether the practice of colouring Teas, we can at least put a final and R. certain slowness in execution which is in strik-ing contrast with the rapidity of their concep-cashire. The cotton manufacturing interest is tion, a kind of incurable distract of themselves complaining andly, and its principal members are and others. They display, in short, some of agitating for a general adoption of short so largely endowed, along with a sincere and week. An enforced diminution of almost a indefatigable desire to appropriate all the bene-third in the total production of what is still the fits of modern civilization. Attempts are being made in Japan to evadicate prejudices and to introduce opportune reforms, thus showing that the observations made in Europe and and the relations formed with Europeans in Japan to be a serious matter, and is most unvelcome if we are to take it as a fair symptom of the general state of trade in the country. The cotton manufacturers have however, been for some time in a very awkward. pan alike have had the huppiest results. All position. The spinners, it is understood, have this gives them a right to the goodwill-and done, on the whole, a profitable husiness, sympathy of Europe, which the Chinese do not but the makers of cloths and shirtings have possess. Yet a note emporting from an frequently worked at a loss. Nor is there any authentic source seems to show that Europe, mystery about the cause. The manufacturer disregarding its true interest, and taking no has had for the last three years to pay much account of the efforts of Japan, is furnishing more for wages, fuel, and many indispensable the Obinese with the arms they need to engage materials; and, although cotton itself has been in war. I shall be glad if the eargoes men- moderate in price, this advantage has been more than counterbalanced by the unfavourable which adds to its credibility, can be explained state of many of his best foreign markets. At the same time, the profits made in 1870 and "The Marseilles packet of the 31st of August 1871 have brought many new firms into the in all. These rifles come from the entrepot of and production greatly expanded. When the battery of six pieces Montagne has just been bere contracted their purchases, many manu-

wages; the men refuse, and, in a circular they A JOURNEY THROUGH THE PARIS bave issued, cite the fact of fortunes having been amassed by manufacturers as a proof that the business cannot be so very bad-forgetting that to every fortune there are perand imagine that I am about to lend you haps a dozen bankinptoies. Harassod by the through an excursion fit only for scavengers difficulty of managing their hands, and hamand drainsmen. A little patience, and you will pered by the requirements of the new Factories exactly the most delightful in the world, is not on the most effectual of all cures, if they can will relieve glutted markets, keep the price of assembled on the Place du Chatelet. It was a by making them put up with a loss of not 5 per cent. morely, but almost 30 per cent, in their enough, the operatives themselves generally ing fresh scene above for the dark stifling favour this course, perferring that the nominal regions below. But the thought passed quickly rate of pay should remain intact, while they work less, than that they should work the same length of time on a lower scale. The shorttime movement is as yet confined to North and North-East Lanonshire, but as this includes: salt buttles; some of the gentlemen, too, had Blackburn, one of the most important of all the provided themselves with bottles of disinfecting towns, the adoption of the step would have a powerful influence in other quarters. The only vaults lit up by oil lamps. Iron pipes of all from the idleness of the majority. Hence we tageous terms on which they have been purdimensions, some bung to the ceiling, others can, us yet, only treat the matter us a sign of supported on props, can right and left in all the times, allowing for the possibility of its
